"Shut your eyes, open your mouth and see what luck will bring you."

Many a woman is weak and sick, nervous and discouraged. She suffers from headache, backache and other ills. She wants to be well, but all she does is to shut her eyes and open her mouth for medicine and trust to luck for results. She "doctors" month after month, often year after year, in this same blind, hap-hazard fashion, and receives no permanent benefit.

Women take Dr. Pierce's Favorite Prescription with their eyes open to the fact that it cures womanly ills. It cures irregularity. It dries debilitating drains. It heals inflammation and ulceration and cures female weakness. There is no trusting to luck by those who use "Favorite Prescription."

"In the year 1903 my health was poor," writes Mrs. J. Hack, of 262 Broadway, Buffalo, N.Y. "I suffered from falling of womb, a disagreeable discharge, painful monthly periods, headache, backache and pains in the limbs. Every month was confined to bed for two or three days. Was weak, nervous and hysterical; life was a burden to myself and I made every one in the family unhappy because I was so irritable. My husband got me four bottles of Dr. Pierce's Favorite Prescription, and before I had taken the first bottle I was feeling some relief. The medicine made me well and strong, free from nervousness, aches and pain, and I felt like a new woman. Before I used the 'Favorite Prescription' I had been taking another physician's medicine for nearly three months, but had received no benefit. Your medicine is certainly the best in the world."

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. Don't let a selfish seller over-persuade you to accept a substitute for these **Original Little Liver Pills**, first put up by old Dr. R. V. Pierce over 40 years ago. Much imitated but never equaled.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weaken, and become diseased.

Japanese Protesting.

Japanese from Tokio say that Premier Katsura and Marquis Ito are the recipients of numerous protests and memorials against the versions of settlement of the war as given by the newspapers.

The Yorozu Shimbun, an independent radical newspaper, attacks the peace pact, opening its criticism with the words "Arise, brethren!" It then reviews the agitation for a representative government with the power of treaty revision and recalls the attempts to assassinate Okuma, saying: "The people never remained quiet when the national interests were menaced." It further declares that the nation will be humiliated unless the people act strongly against the Portsmouth settlement. Lasks: "Why should the victor be conciliatory and the vanquished arrogant?"

They declare that the people's quick action alone will prevent national disgrace after a record of brilliant victories on land and sea. "Otherwise," it says, "our brothers who have been killed in the field have died an inglorious death."

A remarkable absence of rejoicing is one of the most striking features attendant on the receipt of the news that a practical conclusion of peace has been reached.

The kind of reception that awaits definite news will depend entirely on the nature of the terms. It is generally feared that extensive concessions have been made by Japan. It has been generally expected by the public that there would be a rupture at Portsmouth, in view of what was termed Russia's obduracy in refusing the payment of indemnity.

In the absence of official confirmation of the terms it is impossible to form a final opinion, but the indications are that nothing will insure peace with terms that are not honorable.

The morning papers are generally angry, and say that peace obtained on the terms reported is a humiliating one.

Boycott Under Imperial Ban.

A dispatch from Oyster Bay says that China has placed the boycott of American products under an imperial ban. An edict has been issued by the government commanding viceroys and governors of provinces to take measures for the suppression of the boycott and holding them strictly responsible. The State Department at Washington has received a cablegram from Minister Rockhill, at Peking, giving a summary of the edict. The cablegram was forwarded immediately to the President, and by his direction Secretary Loeb made it public yesterday.

The text of the cablegram follows: Imperial edict published yesterday states that the long and deep friendship between the United States and China has never been tried as now. The United States government has promised to revise treaty, and people should peacefully await action of this government. Boycott wrong and harming friendly relations. It (edict) commands viceroys and governors to take effective action, making them strictly responsible. Undoubtedly will have a good effect. Shanghai reported yesterday situation improving.

A dispatch from Shanghai says that the large demand for goods from Niuchwang, combined with the excellent effect with the imperial decree received yesterday, have greatly softened the boycott. The Emperor in the decree advises all Chinese to refrain from boycotting American goods while the discussion of a new treaty is proceeding.

Cholera.

Forty-three cases of cholera in all have been reported in Prussia. Nine persons have died from the disease and fully 1,000 suspicious cases are under observation. The legal and medical machinery for dealing with this invasion of the Asiatic bacillus is now working at full pressure.

That entire precautious shall be taken to prevent bringing in a case of cholera among immigrants from German ports was agreed yesterday at a conference between Health Officer A. H. Doty, of New York, and the representatives of several trans-Atlantic steamship companies. The plan is said to be to exercise great care in taking the immigrants on board ship in German ports. The discovery of a case of cholera in Hamburg was the cause of the conference. Dr. Doty said after the conference that he had no reason to think that cholera would get to New York, considering all the precautions being taken.

Dispatches from Washington say that the health authorities are not apprehensive over the outbreak of cholera in Prussia. Surgeon-General Wyman has already taken measures to prevent the spread of cholera from Germany to the United States by ordering Passed Assistant Surgeon McLaughlin, now stationed at Naples, to proceed immediately to Hamburg and make a thorough investigation of the situation. He also has been directed to be prepared to enforce the Treasury regulation relative to ships leaving for American ports.

Incredible Brutality.

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at E. S. Leadbeater and Sons, drug store.

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER OF ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."

THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by Gibson & Timberman and W. F. Creighton & Co.

A Laxative Cough Syrup.

It meets and corrects the above conditions, by acting as a pleasant cathartic on the bowels—expels all colds from the system and cures all coughs, croup whooping coughs, La Grippe, bronchitis, etc. Sold by W. SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, SEP. 2, 1905.

A QUARTER of a century ago the rooms in all the hotels in the large cities were supplied with Bibles which were placed conspicuously on tables where guests were sure to see them. Considerable Bible reading was consequently engaged in by people traveling to and fro who otherwise would not have thought of perusing its pages. Of late, however, it is said that many hotels have cut out this bed room feature. The present generation does not regard the sacred volume as an adjunct to their hotel surroundings, but prefer other literature. Bed rooms in hotels in the British metropolis are supplied with copies of the Bible and bound volumes of London Punch, so that guests can feed their minds on the sublime or the ridiculous ad libitum. In the olden time Bible societies burmished most hotels with copies of the sacred volumn. They also placed Bibles in racks on railroad cars and other public places for the convenience of the public. Probably more good was accomplished in this way than in many more modern attempts to interest people in things spiritual. But this is not a Bible-reading age, nor does solid literature of any sort seem to appeal to the masses as it did a third of a century ago. The world is kept flooded with flimsy and cheap reading which destroys all appetite not only for biblical but for any sort of history. Most people are interested only in what is going on around them today, and manifest but little interest in things past or things to come.

THE CLOSING of churches during the summer season is causing considerable talk in some of the larger cities, it being asserted by many that the churches are at fault in ceasing their labors during the warm weather, and reasons are being given to show that it is as necessary to keep places of worship open in summer as in winter. One clergyman in New York, who takes no vacation, said a few days ago:

I do not have time to get away for a vacation. I'm so busy. I find that there is really more to do in the summer time than in the winter. There is more sickness, more suffering, more general distress in summer than in winter. Vecation time is a time when dangerous and insidious temptations disguise themselves in such garb as Satan, who is never off duty, assumes.

The rank and file of humanity have but little intermission in their toils. Every season is alike to them. They continue the plod of life through winter's snows and well as during the dog days. Those of this class who are members of churches which are not closed in summer compose the corporals' guards who attend them. His satanic majesty, as suggested above, is especially busy with allurements at a time when the fold is deserted and the shepherds afar off.

THE STATISTICS regarding injuries received during the Fourth of July celebration, with special reference to tetanus resulting from these injuries, has been published. The total number of cases this year was 104. In 1903 there were 415 cases, and last year 105. The totals of accidents resulting from blank cartridges were 809; in 1903 the number was 1,672, and last year 1,005. Besides 87 deaths from tetanus, there were 95 from other accidents, a total of 182. There were 4,994 non-fatal injuries and over 1,000 more of others having their face lacerated or receiving other disfigurements. It will be seen from these figures that the procedures on the last Fourth of July were akin to those of previous years and that the average serious consequences of recklessness resulted. Much has been said recently of the senseless and dangerous manner in which this national holiday is celebrated by many, and attempts have been made to compel its observance on safer and more common-sense lines. The figures given above should prove a deterrent to all whose pleasure seems to consist in incurring danger to themselves and others.

THE APPEARANCE of Asiatic cholera in Europe is naturally causing considerable apprehension. There are 43 cases in Germany and 9 deaths have occurred so far. Every precaution is being taken to prevent its invasion of the United States and steamers arriving from German ports are inspected. This terrible scourge prevails in a greater or lesser degree on some parts of the globe all the year round. Occasionally it stalks abroad and travels from country to country about as fast as a man can walk—thirty miles a day. At times this plague thrives in all climates and its devastations are terrible. It appeared in Alexandria during the first half of the last century and claimed many victims. The havoc it produced in other places was equally appalling. It is hoped that the present generation is not destined to witness a repetition of the scenes which were then enacted.

THE SUBWAY TAVERN, of New York, after a somewhat stormy but well advertised career of thirteen months, is to come to an end tonight, when the new proprietor says he intends to "rip the place to pieces, tear out the 'water wagon' attachment and run the place as a straight saloon and restaurant." His brief comment on the famous experiment consecrated by the prayer of Bishop Potter may be widely adopted as its epitaph: "You can't follow the Lord and chase the devil at the same time."

From Washington.

[Correspondence of the Alexandria Gazette.]

Acting Secretary Murray, of the Department of Commerce and Labor, has received from the State Department all the papers relating to the newspaper interview with Lian Hsun, Chinese charge d' affaires, at Mexico City, on June 30, when he is reported as recounting indignities heaped upon Chinese students, merchants and gentlemen seeking admission to this country at the Mexican boundary. James Russell Parson, jr., consul general at Mexico City, informed the government that the Chinese official denied the statements attributed to him and hence could offer no proof of their occurrence. The incident is regarded as closed.

The Washington correspondent of the New York Evening Post says that Oscar J. Ricketts, foreman of the printing office, was dismissed from the government printing office this morning, for "insubordination." The same punishment has been visted upon Foreman Hay, of the job department. The Post's story intimates that the trouble in the Bureau regarding the typesetting machines may be at the root of the matter, and says the need of a congressional investigation is emphasized.

Joseph P. Killebrew, of Tennessee, has notified Secretary Wilson of the Department of Agriculture that he will accept the appointment of tobacco expert for the department. He will travel throughout the tobacco districts and being a tobacco grower himself is expected to appreciate the effect on the crop of various conditions. While he will not be a member of the statistical crop report board, he will be in Washington for consultation at the time figures on the tobacco crop are to be given out.

No immediate danger for the fleet is apprehended by Captain Ross and he will continue to use Gulfport as a base of operations.

It has become known that the German government has objected to J. Martin Miller, a former Washington war correspondent, acting as United States Consul at Aix-la-Chapelle, Prussia. The German government, it is stated, has grievances against Mr. Miller. They object to him on account of an interview with Admiral Dewey, criticising the German navy, more than two years ago.

The board of consulting engineers of the Panama canal enterprise met today for brief session. It was announced that Henry Hunter the English member, would act on the executive committee in place of Mr. Burr. The board adjourned until next Friday. In the meantime the members will study the maps and plans which have been submitted to them, in order to go about the deliberations more intelligently.

Atlanta's Mayor Censured.

The City Council of Atlanta, in executive session last night, adopted resolutions condemning Mayor James G. Woodward for his conduct at the recent meeting of the League of American Municipalities at Toledo.

The resolutions were passed by a vote of 19 affirmative to 2 against. They declare that while Mayor Woodward was attending the convention in his official capacity he appeared on the floor of the convention in a state of partial intoxication; that he made a spectacle of himself, bringing discredit upon his city and outraging the feelings and sentiments of the people; that this conduct is not typical of Atlanta, and that it is most severely censured and condemned.

It was directed that a copy of the resolutions be sent to the Mayor of Toledo, the officers of the League of American Municipalities and to the leading journals throughout the country.

Mayor Woodward appeared before the Council and declared that he had been greatly wronged; that he had no apologies to make to Mayor Dunne, of Chicago, for his attacks upon him in his talk at Toledo, and that, while admitting that he drank a little beer, he was not intoxicated.

A Fiendish Act.

Charles Christian, 11 years old, son of Lee Christian, was roasted alive in Hannibal, Mo., Thursday night by another boy named McLain, who dashed a can of gasoline over the clothes of young Christian and then applied a lighted match. Christian was playing in the street with several other boys when McLain walked up swinging a gasoline can. After twice threatening to roast the Christian boy alive he finally made his word good. He unscrewed the cap of the can, rushed upon Christian and drenched him from head to foot with gasoline.

Before the unfortunate lad could get away he touched a lighted match to his trousers. Instantly the boy was enveloped in flames. He fell to the ground screaming in agony and fighting the fire. Many persons ran to his rescue and succeded in extinguishing the flames.

Every stitch of clothing was burned from young Christian's back. The boy will die.

New York Stock Market.

The crown prosecution saw that his case was hopelessly weak, and, accordingly, a nolle prosqui was entered by the Attorney General yesterday.

A scale of wages of not less than $5 a day and $6 if it can be secured was fixed. Charles E. Turk, a discharged policeman, was elected president. Then each of the 110 charter members paid 25 cents for expenses. Turk produced a book and said that everyone present must sign it, the idea being that the first man who signed was to get the first position. A large number fell over each other in their haste to sign the book.

The place pays $1,800, and Mr. Bottom will stand for election before the Legislature. The appointee is prominent as a labor man, is a practical printer and is young, capable and honest.

The Governor issued a labor day proclamation, as did also Mayor McCarthy.

Drafting Treaty.

Portsmouth, N. H., Sept. 2.—The first draft of the treaty of peace between Russia and Japan has been completed unless the counsellors decide to review some of the articles which they have already passed upon. This is, however, not expected.

The desire of the envoys to permit of delay in the signing of the treaty was made manifest at a late hour last night. The respective counsellors, who have been assigned to the duty of framing the document, came to a decided hitch over the article relating to Saghalin. The particular point at issue was the question of fortification. The draft of the protocol of the morning, at which it was agreed to divide Saghalin, prohibited Japan to fortify. The Russians contended that this, by inference, gave their government the right to erect fortifications. Two day's conferences were unable to bring about an agreement and as an easier way out of the difficulty the envoys of Japan and Russia arranged an informal meeting at 10 o'clock last night in M. Witte's room. After a thorough discussion the Russian envoys receded from the position taken by their counsellors and it was agreed that neither government should be permitted to erect fortifications upon Saghalin.

The envoys also discussed the article of the treaty relating to the evacuation of Manchuria. A date will be later agreed to, by which time the armies of both countries must be withdrawn, but the details will be left to the commanders in the field. A meeting of the Japanese and Russian plenipotentiaries has been called for this afternoon, to consider and approve the draft of the peace treaty. Instead of going to the navy yard, the envoys have arranged to hold today's session at the hotel.

Besides endorsing the draft of the treaty, the envoys at today's meeting will sign the protocol of the session of last Tuesday, at which the peace agreement was reached.

Mr. Sato said this morning that he did not believe that the treaty could be formally signed before Tuesday.

Portsmouth, N. H. Sept. 2.—At 12:45 o'clock the meeting of the treaty framers adjourned. Mr. Dennison, the Japanese counsellor, says that a few minor points are yet to be adjusted, but that the treaty has been practically completed for the inspection of the envoys at this afternoons meeting, when it is understood the divergent views as to phraseology will be harmonized.

Portsmouth, N. H., Sept. 2—Mr. Dennison, the Japanese counselor, announced at 1p.m. in response to an inquiry that no message had been received from the Emperor of Japan for five days. He admitted that the drawing of the armistice yesterday was taken by the Japanese envoys on their own responsibility.

Taggart to be Courtmartialed.

Wooster, O., Sept. 2.—Whether or not he wins his suit for divorce now being tried here, Captain Taggart must face a courtmartial in a fight for his shoulder straps. Information that Lieut. Fortescue, kin of President Roosevelt, also will file charges for courtmartial against Taggart, comes from an authoritative source. Fortescue is named as a co-respondent. He is now in Europe. Mrs. Taggart is to be a witness against Taggart in the courtmartial charges filed by General Miner. Her written statement has already been filed with the War Department at Washington.

On Miner's allegation Taggart now stands accused of conduct unbecoming as officer and a gentleman, in making false charges against Miner. The alleged offense is scarcely six months old. Courtmartial charges based on Taggart's conduct at Fort Leavenworth, including the allegation that he assaulted his wife, and put her from the house naked were threatened, but this courtmartial, according to testimony, was prevented by Mrs. Taggart. In the pending courtmartial, it is announced, Miss Anna Berry, daughter of Judge and former Congressman, of Newport, Kentucky, is a witness. Captain Taggart's testimony against Miner was that he overheard Mrs. Taggart telling Miss Berry about the alleged pinching incident at the Miner dinner.

Anxious to wind up the trial without delay, Judge Eason decided to hold court Labor Day. The morning was spent in reading depositions of army officers who said the captain was sober and to the best of their knowledge, was kind to his wife and children.

Precautions Against Cholera.

Hamburg, Sept. 2.—As a part of the precautions being taken to prevent any spread of cholera, which threatens to become epidemic, the police have forbidden the passage through Hamburg of immigrants from Russia, for the time being. The German health officials are taking all possible precautions to prevent the disease getting a foothold in Germany, and as cholera is reported to be gaining some headway in parts of Russia, the influx of Russians will be stopped for a time at least.

New York, Sept. 2,—A cablegram was received at the local office of the Hamburg-American steamship line this morning, announcing that the Hamburg authorities have stopped all Russian immigration via Hamburg, as a further precaution to prevent the spread of cholera to Germany's important seaports. The Hamburg-American line's steamer Moltke which sailed from Hamburg on Thursday, is bringing first and second class cabin passengers only, and only such immigrants will be taken on subsequent steamers that have passed the proper period of detention and observation as required by the health authorities, of Hamburg.

In Princely Style.

London, Sept. 2.—Ambassador Whitelaw Reid's lease of West Park, Earl Cowper's magnificent country seat, for a summer home, indicates that he is planning to live on a scale of splendor never before attempted by an American representative at the Court of St. James. Joseph H. Choate, whom Mr. Reid succeeded, established a social standard for the American Embassy higher than any of his predecessors. According to his own statements it cost Mr. Choate $60-000 annually, although his salary was only $17,500.

Mr. Reid's plans mean nothing else than that he will spend $100,000 annually, over and above his salary, for the distinction of representing his country at King Edward's court. London gasped with astonishment when it was announced that Mr. Reid had leased Dorchester House for his city residence. The annual rental Mr. Reid pays for this splendid home, which rivals Buckingham Palace in spaciousness and the beauty of its decorations, is $27,500, or $10,-000 a year more than his salary. For West Park he pays as much, if not more, than for Dorchester House.

Railroad Accidents.

Gardiner, Me., Sept. 2.—The second section of the night Pullman from Boston ran into the first section of the same train at this place this morning, at 3:15 o'clock, telescoping two cars and injuring about a score of passengers. Fortunately no one was killed, and none of the injured suffered broken bones. Most of the passengers in the rear car of the first section, which was an ordinary coach, were bruised and some of them were scalded by escaping steam from the engine of the second section, which buried itself in the car up to the engine cab. The car next forward was somewhat smashed, but none of the passengers in it was hurt.

Tazewell, Va., Sept. 2.—Frank Kizer, the six-year-old son of A. G. Kizer, a carpenter, was instantly killed about 5 o'clock yesterday at the home of A. B. White in this town, while playing with a shotgun. The load entered the boy's abdomen and came out in his back. He was dead before his family physician could reach him. The little boy and a daughter of Mr. White, about the same age, where playing with a breech-loading shotgun. The boy picked up the gun and told the little girl that he was going to shoot her. Whereupon he aimed the at her, pulled the trigger, but it failed to fire. The little girl picked up the gun and said that she was going to shoot him. She aimed, pulled the trigger and the load from the gun, which was thought to be unloaded, went crashing into the boy's body with the above results. The affair was one of the most unfortunate and shocking that has occurred in this community for many years.

Physician Shot.

Meridian, Miss., Sept. 2.—Dr. H. C. Henderson, a prominent physician of Nosho county, was shot yesterday by John Hinson, a prominent planter, with a double-barreled shot gun on a public road. His injuries were considered probably fatal. The shooting originated in the persistent talk in the neighborhood of Henderson's illicit-relations with Hinson's wife. The Printers' Strike.

The spreading of the job-printers' strike to other cities is a possibility, following the arrival in Chicago of President James Lynch, of the International Typographical Union, today. In a conference President Lynch will talk over the situation as it applies to Chicago and the whole country with President Wright, John C. Harding and other Chicago leaders. After the conference an order may be issued calling out printers in seveal large cities where the National Typothetæ has shops.

This action is counseled by some in order to weaken this Chicago Typothetæ. It is urged that with strikes going on in other cities the Chicago Typothetæ will be able to get men to go to that city to take positions.

Mention was made in Thursday's Gazette that it was proposed to organize a chain gang from the prisoners committed to jail. An examination of the laws bearing on chain gangs discloses what appears to be amendments to the old law. One in reference to escapes provides "that if any person ordered to work in any chain gang shall escape, or attempt to escape, from the custody of the person in whose charge he may lawfully be, he may be pursued, captured, and retaken by any person, without warrant, at any time within five years," &c. Another addition or amendment is made to the State code of 1887, which amends section 3938, adding these words: "In the event of such person or persons so assigned to labor do not conform to and obey the rules and regulations prescribed for their government, the same may be enforced by the infliction of such corporal punishment as the council of the city or town or board of supervisors of the county or the judge of the circuit or corporation court, either in vacation term or vacation, may prescribe, to be executed by the sergeant of city or town, or jailer, or the officer or other person placed in charge of such chain gang." The chain gang, it is said by persons who have been in a position to know, has not brought forth what was hoped for. The captain of the chain gang must be confirmed by the City Council and give a bond in the sum of five hundred dollars and receive only a compensation of one dollar and fifty cents per day, as least this is the law as laid down in the city code, chapter nine, section 13.

Attempted Robbery.

A negro, believed to be Charles Baltimore, attempted to break into the store of the M. Schuler Beef Company, on the south side of King street, near Patrick, last night. Mr. Schuler was in the front part of the store, and when the darkey became aware of that fact he fled from the premises, dropping his hat in his flight. Officers Bell and Allen examined the hat and recognized it as Baltimore's caputical covering. They later arrested him. He was brought before Justice Caton in the Police Court this morning and his case was continued.

Baltimore was placed in a cell on the lower floor. He began to feign sickness almost as soon as he was locked up and ever and anon had the cell unlocked under different pretenses. The prisoner had in the meantime removed his shoes, and shortly after noon he called Officer Roberts, who was on duty at the station house, and induced him to unlock the door. The officer was at the time engaged in talking to a prisoner in another cell who was endeavoring to raise the necessary wherewithal to pay his fine, and one of the telephones ringing at the time, Mr. Roberts hastened to answer it, when Baltimore made a dash out of the cell into the street. The officer started after the fugitive, but Baltimore was too fleet of foot for him and was soon out of the neighborhood.

The Elton.

One of the most inviting dining rooms in the city is that which has recently been opened by Messrs. Riley and Spinks at The Elkton. The regular meals which they serve are said to be unsurpassed, while the delicacies which they sell are prepared in a tempting style. During the oyster season, which has just opened, luscious bivalves will be served in every style known to the culinary art. This hostelry has had a reputation for years for fine fried oysters, and it is the intention of this firm to keep up this well-merited praise.

Excursion Monday.

District Assembly, No. 66, Knights of Labor, will give an excursion to Marshall Hall on Monday next (Labor Day). All the arrangements have been perfected and an enjoyable time is assured all who patronize the excursion. Those heretofore given by the assembly have proven very satisfactory, and every effort will be exerted to make that of Monday equally so. The steamer Charles Macalester will stop here three times—in the morning and twice during the evening.

The Market.

There was a slight increase in the number of attendants of the market this morning. The supply of country produce was ample, and prices which have prevailed for several weeks were obtained for the articles offered. There was a better supply of saltwater fish than on previous Saturdays. Prices were firm, however.

Mr. Warfield proposes to build a three-story brick structure, the first floor of which will be used by him as a drug store and the upper portion arranged into flats.

The Alexandria Laundry.

The advertisement of the Alexandria Steam Laundry appears elsewhere in the Gazette. This plant is adding to its facilities all the time and it affords employment to a number of Alexandrians. The work turned out is unexcelled by that of any laundry in the larger cities, and many of its customers are in Washington and in the surrounding neighborhood. It is operated by Alexandrians, and the enterprise should be encouraged by such.

Detective's Narrow Escape.

Superintendent of Detectives Thomas A. McQuaide narrowly escaped being murdered in his private office, in the Public Safety Building in Pittsburg, Pa., shortly after 3 o'clock yesterday afternoon by Edward Johnston, a giant negro burglar and "bad man" from Chicago. As it was, the superintendent, four of his detectives and his chief clerk were all cut up and bruised before a blow from a blackjack brought the negro down.

Johnston was arrested yesterday afternoon while trying to pawn jewelry valued at $1,000 and taken before McQuaide. He was searched and a large quantity of valuables and several weapons taken from him. Then the Superintendent was left alone with the negro. He demanded that Johnston take his shoes off, as he wanted to make a further search. Johnston refused, and McQuaide decided to perform the task himself. As he stooped forward Johnston seized him about the waist, and a frightful struggle ensued, McQuaide trying to reach a row of electric call buttons on his desk, while the negro fought to secure a heavy paper knife which was on the desk.

The negro finally secured the knife and cut McQuaide several time. He was just about to plunge the knife into the superintendent's back when McQuaide reached the buttons and summoned help. Detectives McCough, Lally, McRobert and Cook and Chief Clerk Keene ran into the room. The big negro was a match for them all, however, and fought them through the outer office into the hallway before a blow from a blackjack brought him down. All of the six men were cut and bleeding, although the injuries of none of them was serious, McQuaide being the worst injured. He received several bad slashes in the face and hands.

Superintendent McQuaide is one of the best known detectives in the country. Recently he won fame by following to England and bringing back the Ferguson murderers, two of whom were hanged. Johnston is one of the most dangerous crooks in the country.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter he says, "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure Dyspepsia, Billiousness and Kidney Disease, by E. S. Leadbeater & Sons, druggists, at 50c a bottle.

Cause of Insomnia.

Indigestion nearly always disturbs the sleep more or less and is often the cause of insomnia. Many cases have been permanently cured by Chamberlain's Stomach and Liver Tablets. For sale by Gibson & Timberman and W. F. Creighton & Co.

Numerous and Worthless.

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by W. F. Creighton & Co., 401 King street.

PROPOSALS.

AN ORDINANCE to provide for the granting by the City Council of Alexandria, to the person or corporation hereafter to be ascertained in the manner prescribed by law, of the exclusive right to furnish electricity for light, heat, power and any other general purpose to the City of Alexandria and inhabitants thereof, and to erect, construct and maintain the necessary poles and fixtures and to run wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, for the purpose of supplying electricity.

Be it ordained by the City Council of Alexandria, Virginia:

Section 1. That there shall be granted in the manner prescribed in an act of the General Assembly of Virginia, approved May 20, 1903 the rights and privileges on, over, under and along the streets, public alleys, bridges, parks, and other public ways and places in the City of Alexandria, which are embodied in the following draft of an ordinance:

An Ordinance to grant exclusive right to ——, its successors and assigns, to furnish electricity for light, heat, power and any other general purposes to the City of Alexandria and inhabitants thereof, and to erect, construct, and maintain the necessary poles and fixtures, and to run wires on, over, under and along the streets, public alleys, bridges, parks, and other public ways and places in the City of Alexandria, for the purpose of supplying electricity.

Be it ordained by the City Council of Alexandria, Virginia:

1. That — —, its successors and assigns, be and they are hereby granted the exclusive right to furnish electricity for light, heat, power and any other general purposes to the City of Alexandria, and the inhabitants thereof, for a period of thirty years, and for the purpose of furnishing and supplying electricity for light, heat, power, and other general purposes they are hereby granted the use of the streets, highways and other public ways and places of said City, and are authorized to erect, construct, and maintain the necessary poles, fixtures, and other essential apparatus, to construct and maintain conduits, and to run and maintain wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, in order to furnish and supply electricity for light, heat, power and other general purposes to the City or to the inhabitants thereof, upon the conditions, provisions and limitations hereinafter set forth, as well as under these set forth in such ordinances of the City of Alexandria, as may be applicable thereto, and as are not in conflict with this ordinance and the amendments heretofore made or which may be hereafter made to such ordinances.

2. Each route shall be first determined upon by the City Engineer before any poles are erected, and the Commissioner on streets may require the said ——, its successors or assigns, to use and occupy the poles already erected by any person or corporation before the running of wires along such route, provided that the City Engineer first deliver to the said ——, its successors or assigns, permission in writing from the owners of such poles already erected, to run and maintain other wires thereon, at reasonable rates to be fixed by agreement or arbitration. All wires run and all work done in pursuance of this ordinance shall be done in a good workman like manner and of material suitable for the purpose, at the time the work is executed, and shall be approved as such by the City Engineer.

3. The rights and privileges hereby granted shall continue for thirty years unless sooner forfeited as herein provided for, and upon the termination or forfeiture of this grant the entire plant, as well as the property of said — —, its successors or assigns, located in the streets, public alleys, or other public places in the city, shall become the property of the City Council of Alexandria, upon the payment to the said ——, its successors or assigns, by the City Council of Alexandria, of a fair cash valuation of said entire plant and property, but the said—— —— shall be entitled to no compensation by reason of the value of the franchise hereby granted. In the event of the City Council of Alexandria and the said—— ——, its successor or assigns, being unable at least six months prior to the termination of this grant, or within thirty days after the forfeiture thereof, to agree upon a fair and just cash valuation of said plant and property, then and in that event, such valuation shall be determined by arbitrators, one to be appointed by the City Council of Alexandria, one by the said—— ——, its successors or assigns, and the third (in case of disagreement by such arbitrators) by these two arbitrators, or, in the event of the the two so chosen being unable, within twenty days after the date of the appointment of whichever of the two was last appointed, to agree upon a valuation, or failing that to agree upon a third arbitrator, the third arbitrator shall be appointed, by the then Judge of the Sixteenth Judicial Circuit of the State of Virginia, and the three arbitrators so appointed, shall proceed to establish a fair cash valuation of said plant and properties excluding the value of or any compensation for the franchise hereby granted, and upon the payment of the amount so established and fixed to the said — —, its successors or assigns, by City Council of Alexandria, the said plant and property shall thereupon vest absolutely in the City Council of Alexandria, and any expense incurred for compensation for the three arbitrators so appointed, shall be borne by the said——, its successors or assigns, and the said City Council of Alexandria, equally.

4. The City Council of Alexandria expressly reserves the right to impose other reasonable regulations, conditions and requirements upon the said ——, its successors or assigns and to pass such other ordinances as may be necessary to secure efficiency of public service by said ——, its successors or assigns, at reasonable rates, and to compel the said ——, its successors or assigns, to maintain said plant and property of the said —— in good order throughout the term of this grant; and it is hereby expressly provided that for a failure to comply with any material provision of this ordinance or of any such regulation, condition, requirement or other ordinance, this ordinance may be declared forfeited by said City Council of Alexandria, and be repealed, and the franchise hereby granted be declared to be at an end, provided always that any such failure shall not have been made good by the said ——, its successors or assigns, within ninety days after written notification of such failure to said ——, its successors or assigns, provided always that any such failure resulting from the act of God, public enemy, strikes at home or abroad or from any other unavoidable accidents or events, shall not be deemed a ground for declaring the franchise, rights and privileges hereby granted repealed, forfeited or at an end.

And it is further provided that should the said ——, its successors or assigns, be compelled by virtue of any state or municipal law or ordinance to place its or their conductors or any portion or portions thereof under ground, that the City Council of Alexandria shall provide, at its own expense, the trench or trenches necessary for the burying of such conductors, said City Council bearing the entire expense and responsibility incident to the opening and closing of such trench or trenches and the proper relaying of the pavement thereby disturbed, and said ——, its successors or assigns, bearing the entire expense incident of the furnishing and placing within such trench or trenches or the underground conductors and conduits so required.

5. For failure to comply with any material requirement of this ordinance the said — —, its successors or assigns, shall be liable to a fine of not less than ten nor more than one hundred dollars for each offense, each day's failure to be a separate offense, said fine to be collected as other fines are collected and paid into the city treasury. The imposition of any fine under this section shall not prevent a forfeiture under the foregoing section.

6. That the said ——, its successors or assigns, in the equipment of the poles, wires, fixtures or other works will use such appliances as are best designed to prevent injury by electrolysis to the water and gas mains and pipes or other public improvements of the city, and will pay to the City Council all damages to gas mains and pipes occasioned by electrolysis caused by the failure to use such appliances and will also indemnify and save harmless the City Council from all claims of damages occasioned to person or property growing out of injury from the failure to use such appliances. The said —— ——, its successors or assigns, agree and bind themselves to hold the City Council free and harmless from liability from any and all damages, except as herein otherwise expressly agreed, that may accrue to any person or persons or corporation or corporations on account of injury or damage to person or property growing out of the construction, improvement, maintenance, repair or operation of the works and fixtures hereby authorized, and whenever the city is liable therefore and shall be sued for such damage either independently or jointly with the said ——, its successors or assigns, on account thereof, the said ——, its successors or assigns, upon notice to it or them by the City Council will, except in a case where it is herein agreed that the entire responsibility for any stated work shall lie on the City Council, defend the city in such suit, and in the event of a judgment being obtained against the City Council, either independently or jointly with the said ——, its successors or assigns, on account of acts or omissions of the said ——, its successors or assigns, then said —— ——, its successors or assigns, will pay such judgment with all costs, and hold the City Council harmless therefrom.

7. The said ——, its successors or assigns, shall have a telephone placed and kept in its or their central station and whenever it shall become necessary to have the current cut off the wires on any of its circuits during the progress of a fire, said —— ——, its successors or assigns, shall immediately, upon the receipt of a message from the Chief of the Fire Department, or his representative, have the current on such circuit cut off and allow it so to remain until notified by the said officer or his representative that the said current may be again turned on.

Should said ——, its successors or assigns, fail, at any time, to immediately obey any such message whenever given, it or they shall be liable to a fine of not less than ten dollars nor more than one hundred dollars for such failure.

8. The privileges hereby granted are given upon the following further conditions:

(a) That said ——, its successors or assigns, will, within six months from the date of approval by the Mayor of the city of Alexandria, the final ordinance granting the privileges herein contained, begin to construct the work hereby authorized, as herein agreed, and fully complete the same within twelve months after the approval of said ordinance.

(b) That said ——, its successors or assigns, will continue to push to completion such work as herein agreed, until said —— ——, its successors or assigns, shall be ready to furnish an adequate current for electric light, heat and power.

(c) That said ——, its successors or assigns, shall, before commencing work under the provisions of this ordinance, execute a bond with security to be approved by a majority of the Finance Committee of the City Council of Alexandria, in the penal sum of ten thousand dollars, conditioned upon the faithful construction and putting into operation, within the time prescribed, and for the proper maintenance of the plant and works necessary to secure efficiency of public service, and to protect the City Council from damages arising from suits or otherwise, for which said—— ——, its successors or assigns, are responsible.

Section 2. That upon the approval of this ordinance by the Mayor of the City of Alexandria, it shall be the duty of the Clerk of the City Council to cause to be advertised once a week for four successive weeks, in a newspaper published in the City of Alexandria, a draft of the ordinance contained in the foregoing section, and in addition, he shall, in such advertisement, invite bids for the franchise, privileges and rights proposed to be granted in the proposed ordinance, and also for the present electric plant of the city. The costs of this advertisement shall be reimbursed to the City Council of Alexandria by the person or corporation to whom the grant of this franchise is finally made.

The City Council will reserve the right to reject any and all bids. Every bidder will be required to file with his bid a certified check for five hundred dollars, payable to the order of the City Council of Alexandria, which certified check will be returned to said bidder on the rejection of his bid, or, if his bid be accepted and the above franchise awarded him said certified check will be returned on the delivery to the City Council of the bond mentioned in sub-section of Section C of section 8, above.

The bids are to be delivered to the presiding officer of the Common Council of the City of Alexandria, at the day and hour of the next regular session of said body in open session to be held next after such advertisement shall be completed, which bids, by said presiding officer, shall be then and there presented to the City Council, to be dealt with and acted on in the mode prescribed by law.

Section 3. This ordinance shall be in force from its passage.
